

I am grateful to the Women's Community League for choosing me as a recipient of their scholarship. Continuing my education has been an exciting, yet daunting, next step after leaving Weston High School. As a young adult from the area, I always strived to give back to the Weston community because of all the support that I received while growing up. The Women's Community league helped me pay tuition so that I could study to become a teacher and in turn, encourage others to pursue their own dreams and goals.
