

Graduating high school is an exciting but stressful time in any teenager's life as a whole world opens up with new worries and unknowns, and my experience was no exception. That's what made accepting the Women's Community League scholarship so impactful in my life, because it brought much-needed peace of mind and support while navigating the financial realities of college and life beyond Weston. I am so grateful for WCL and the work they do to foster the Weston community that I love and made me who I am today.
